

## Seize the opportunity to collaborate with Taiwan's Healthcare Industry

**Hsinchu Science Park includes the largest and most complete medical industry cluster**

**in Taiwan. (Only the companies who pass the investigation on Capital/Technology/Marketing Planning can be approved to move in.)** Medical devices makers at the Hsinchu Science Park mainly focus on research and development of advanced and innovative medical equipment.

We invite 8 leading companies from HSP presenting their innovative solutions for medical and healthcare, and showing the diversified technical power of industry.

Welcome to join us: <https://sites.google.com/view/leadingfuturetrends-newtech/>首頁

### ➤ Hsinchu Science Park-Medical Device Presentation

## Agenda

Time	Company
16: 00-16: 05	<b>Opening Speech</b> Wayne Wang, Director General of Hsinchu Science Park Bureau, Most
16: 05-16: 45	<b>Presentation by Taiwan Medical device company</b> <ul style="list-style-type: none"> <li>● 16:05-16:10 Advanced Biomedical Technology Inc.</li> <li>● 16:10-16:15 DIGIBIONIC LIFESTYLE</li> <li>● 16:15-16:20 Huijia Health Life Technology</li> <li>● 16:20-16:25 Leverage Biomedical Inc.</li> <li>● 16:25-16:30 Medimaging Integrated Solution</li> <li>● 16:30-16:35 North-vision Tech</li> <li>● 16:35-16:40 Somnics, Inc.</li> <li>● 16:40-16:45 Skyla Corporation</li> </ul>
16: 45-17: 00	Q&A

Company	Description	Product
<p><b>Advanced Biomedical Technology Inc</b></p> <p><a href="https://advbiomedtech.com">https://advbiomedtech.com</a></p>	<p><b>1. Product : MeDFila® medical grade 3D printing filaments</b></p> <p><b>2. Product : medical implant manufacturing service</b></p> <p>MeDFila® is a registered brand of a series of biodegradable 3D printing filaments, the polymers based raw materials for additive manufacturing, designing for medical application via FDM system. We provide pure polymers, and polymers-ceramics composite filaments for variety of medical applications.</p>	
<p><b>DIGIBIONIC LIFE-STYLE CO., LTD.</b></p> <p><a href="http://www.digi-sine.com/">http://www.digi-sine.com/</a></p>	<p><b>MFi Hearing aid</b></p> <p>MFi series is made for iPhone hearing devices connect to iPhone, iPad, or iPod touch so user can stream audio, answer phone calls, adjust settings, and more.</p>	
<p><b>Huijia Health Life Technology Co.,Ltd</b></p> <p><a href="http://www.huijiahealth.com.tw/index.php?lan=en">http://www.huijiahealth.com.tw/index.php?lan=en</a></p>	<p><b>1、Smart Care Film(Mat)</b></p> <p><b>2、Smart Care System</b></p> <p>Huijia's non-invasive monitoring Smart Care System for elderly and babies uses fiber optics based on nFOPT® core technology that can accurately track the first symptoms of the virus. Even without a fever and in cases of comorbidity, smart care system can identify patients in the early stages of COVID-19.</p>	
<p><b>Liverage Biomedical Inc.</b></p> <p><a href="http://www.lbi.com.tw">http://www.lbi.com.tw</a></p>	<p><b>1. Photochemistry :</b></p> <p><b>Light Therapy instrument/Semiconductor Intravenous Laser Irradiation of Blood</b></p> <p>For improving Immune system and Reduce physical aging problem &amp; Remove toxins from body, enforce the physical performance.</p> <p><b>2. Photophysics:</b></p> <p><b>Cross series/Grib Series</b></p> <p>Photon Therapy QA system</p>	

Company	Description	Product
<p><b>Medimaging Integrated Solution</b> www.miis.com.tw</p>	<p><b><u>Horus Digital Diagnostic Set - DSC 300</u></b> <b><u>Horus Digital Fundus Camera - DEC 200</u></b> Horus Scope is designed for telemedicine which develops the concept of 'Device to Device'. Collecting medial image and data of vital sign with Bluetooth in a few seconds and then integrating all data to device which highly improves the progress of operating. With Wi-Fi transmission to multi-platform, it increases medical efficiency, making case history completed</p>	
<p><b>North-vision Tech. Inc.</b> <a href="http://www.north-vision.com">http://www.north-vision.com</a></p>	<p><b><u>1.Multi-parameter Patient Monitor</u></b> Provide Special Function of HRV - Can Provide ECG, SpO2, and NIBP. - Not only ECG signal, but from AI calculation, we can provide the HRV function including the sympathetic and para-sympathetic info. of body. <b><u>2.Wearable Pulse Oximeter</u></b> - Offer the AI intelligent Software which can analyze the Apnea and Hypopnea Syndrome. - Can Provide ODI (Oxygen De-saturation Index) which may get the exact value of events per hour</p>	
<p><b>Somnics, Inc.</b> <a href="https://www.somnics.com/">https://www.somnics.com/</a></p>	<p><b><u>iNAP® Sleep Therapy System</u></b> iNAP® Sleep Therapy System is designed to treat Obstructive Sleep Apnea (OSA) in adults. Contrary to existing OSA-treatment machine-Continuous Positive Airway Pressure (CPAP), iNAP® comes with revolutionary therapy system of applying "Negative Pressure" to oral cavity, provides a simple, more comfortable and discreet way that allows patients to breath naturally during treatment.</p>	
<p><b>Skyla Corporation</b> www.skyla.com</p>	<p><b><u>skyla HB1 Clinical Chemistry Analyzer</u></b> HB1 provides medical facilities and clinics with an in-vitro clinical chemistry diagnostic tool that is compact, portable, and reports rapid results. <b><u>skyla Solution - Veterinary Biochemical Immunoassay Analyzer</u></b> Solution provides veterinary clinics with an in-vitro clinical chemistry diagnostic tool that is compact, time-saving and cost-effective.</p>
